Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 - 17, drawn to a tray for holding a guide wire, classified in class 206, subclass 363.
 - II. Claim 18, drawn to a method of preparing the tray, classified in class 206, subclass 363.
 - III. Claim 19, drawn to a method for storing and retrieving a guide wire, classified in class 600, subclass 585.
 - IV. Claim 20, drawn to a method of performing an angiography on a patient, classified in class 600, subclass 585.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In this case, the method does not require a corrugated tray. Any tray could be used with invention II.
3. Inventions II, III and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are three unrelated individual methods each having a different functions.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3736

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. During a telephone conversation with Danny J. Padys on 7/5/02 a provisional election was made without traverse to prosecute invention I, claims 1 -17. Affirmation of this election must be made by applicant in replying to this Office action. Claims 18 – 20 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Art Unit: 1746

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 1-6, 9, and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over either Purr, Akanuma et al. or Randall et al.

Re claim 1, the patents to Akanuma and Randall are each cited disclosing an apparatus for holding an article comprising a tray having corrugated areas that differs from the claim only in the recitation of intended use of holding a guide wire. Nonetheless, the intended use is not deemed to structurally define either Randall or Akanuma. Re claim 2, to employ a curved surface is deemed to be an obvious matter of design. This is also applicable to the subject matter of claims 4 and 6, namely the fluid source and claim 5, the solution. Re claim 7, Randall discloses the second fluid source. Re claim 3, Randall and Akanuma disclose the reservoir. Re claims 9 and 10, Randall and Akanuma disclose the drainage.

9. Claims 8, 11-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. In Alford, Manning, Purr, Crawford, Miller et al., Langford, Roberson, Hamlin, Dittman, Lithander, Bubser, Bowman et al., not the cleaning means.
